

ACITERG

- Fast acting, very high foaming concentrated blend of mild phosphoric & organic acids with powerful penetrating detergents.
- Especially formulated to de-scale, de-lime and de-stain stainless steel equipment in food & beverage plants.
- Excellent for removing milkstone, and mineral deposits from milk, cheese, candy, and other food processing equipment.
- Effective for removing protein matter from all processing equipment, hard water scale from dishwashers, and urine scale from animal cages.
- High foaming and excellent wetting when used for cold to very hot foam cleaning of all types of equipment that can be cleaned with acids.
- **Not for use on soft metals like aluminum, tin, zinc or galvanized steel.**

DIRECTIONS

Foam Generator	1-2 oz/gallon hot or cold water.
Milkstone Removal	1oz/gallon at temp's over 160°F.
Soak Cleaning & Descaling	4-6 oz/gallon.
