

DRAIN CLEANER

CAUSTIC POTASH LIQUID OPENER

Highly alkaline, heavy duty, super concentrated liquid drain opener for industrial drains. High density pours through standing water to open drains. Rapidly dissolves hair, grease and other organic matter in pipes, disposals and drains. Safe to use on disposals, plastic, steel cast iron pipes and porcelain surfaces.

DIRECTIONS

Danger - handle with care. Wear protective gloves and goggles when using. Avoid skin contact. See caution statement below.

Clogged Drains - Open container carefully!!! Slowly pour 1 pint of drain cleaner into drain and allow standing for ½ to 1 hour. Repeat if necessary to open drain. After drain has cleared, flush with warm water to remove dissolved soils.

Sluggish Drains - Use 12 oz of drain cleaner and follow directions above.

Preventive use - Add 8 oz drain cleaner weekly to the drains and allow standing for ½ hour or more and then flushing with water.

FOR INDUSTRIAL USE ONLY

CAUTION: Keep out of the reach of children. Contains caustic potash (potassium hydroxide). Wear protective clothing. Injures eyes and skin on contact. Do not use in drains treated with acid type openers. Do not mix with ammoniated, acid toilet bowl or other cleaning compounds. Keep people away from sinks being opened. Do not use a plunger on the sink being opened.

EMERGENCY TREATMENT - **Eyes** - immediately flush with water for 15 minutes and see a physician. **Skin** - wash with water; then if available rinse with vinegar. Remove contaminated clothing and launder before reuse. If ingested, drink lots of water and see a physician.
