

ORANGE TRAP CLEAN

NON-TOXIC GREASE TRAP SOLVENT AND MORE!

Safe non-emulsifiable trap and drain degreaser that floats on the surface to prevent odor back-up and grease solidification. Made from natural solvents distilled from citrus fruit and other plant materials. Extremely effective in preventing clogged drains and grease traps, eliminating the need for further manual cleaning. Contains no toxic chlorinated solvents. Non-polluting, non-acidic, non-caustic and non-corrosives.

Orange Trap Clean also provides a floating layer on waste systems eliminating mosquitoes and their ability to lay their eggs.

DIRECTIONS

Add enough treatment to provide approximately a 1 inch layer on the grease trap or drain surface. One gallon covers two square feet of surface for the initial maintenance dosage. Thereafter add a pint per week for normal loading or 1 quart for heavy loads of fat and oils.

Add by pouring into the drain nearest to the grease trap or remove the trap cover and add directly to the trap.

Only a thin layer of product is needed for mosquitoes and flies control.

FOR INDUSTRIAL USE ONLY

Caution: Keep out of the reach of children. **Combustible.** Store in a safe place away from extreme heat and open flames. If eye contact occurs, wash away with water until irritation stops. If it persists, see a physician. Avoid prolonged skin contact. Wash from skin with soap and water. Wash contaminated clothing before reuse.
