

STENCIL OFF

SAFE ORGANIC PAINT AND RESIN STRIPPER
NON - POLLUTING • LOW ODOR • LOW TOXICITY
NON -CHLORINATED

Safe solvent system for readily removing most resins and many types of dry ink residues. Flash point of 220°F for low fire hazard and completely water soluble for ease of extinguishing fires if material is ignited at very high temperatures. Does not contain hazardous or toxic chlorinated solvents, or highly flammable esters or ketones used in flammable strippers. Very low toxicity, rapidly biodegradable and does not harm the environment.

DIRECTIONS

Place stripper in a soak tank or drum. Keep containers covered at all times when not being used. Solvent blend is miscible with water. Submerge part to be stripped in solvent until inks or resin is released or dissolved. Remove part, agitate stripped surface, and then wash off dissolved residues. Spent solvent can be recovered for reuse by atmosphere distillation at 240°C or under vacuum at lower temperatures.

FOR INDUSTRIAL USE ONLY

CAUTION: Keep out of the reach of children. COMBUSTIBLE! Store in a safe place away from extreme heat and open flames. If eye contact occurs wash with water until irritation stops; if it persists see a physician. Wear butyl or Teflon gloves to avoid skin contact. Wash from skin with soap and water. Wash contaminated clothing before reuse.
