

WAX STRIP

Super-concentrated non-ammoniated wax stripper and heavy duty cleaner manufactured from synthetic detergents, powerful emulsifiers, chelating builders, penetrants, powerful solvents and monoethanol amine for rapid floor finish removal. Works equally in hard or soft water. Low odor and free rinsing.

DIRECTIONS

Follow the guidelines below and dilute with water for use. Apply the stripping solution liberally to the floor by mop or machine and allow to remain wet for 3-5 minutes. Agitate with a floor machine equipped with a stripping pad or with stiff brushes on an automatic floor scrubber if pads are not available. Pick up the stripped wax with a mop, wet-vac, or automatic scrubber. Rinse with water and allow to dry if the floor is to be re-waxed.

Seal & heavy wax removal

Use 1 part wax strip in 6 parts water

Normal Wax Removal

Use 1 part wax strip in 15 parts water

Cleaning & Degreasing

Use 1 part wax strip in 40 parts water

FOR INDUSTRIAL USE ONLY

Caution: Keep out of the reach of children. Use in a well ventilated area. Eye contact requires washing out eyes with water until irritation stops. If it persists, see a physician. If ingested, see a physician. If ingested, drink lots of water and see a physician. Remove contaminated clothing. Wash and dry before reuse. Wear rubber gloves for manual cleaning.
