Safe, non-polluting trap and drain degreaser that floats on the surface. Made from citrus oil and other plant materials. Contains no toxic chlorinated solvents and is extremely effective in preventing clogged drains and grease traps, eliminating the need for further manual cleaning. Because it floats, it also caps the drain and grease trap to prevent odor back-up and grease solidification.

**DIRECTIONS:** Add enough treatment to provide approximately a 1 inch layer on the grease trap or drain surface. One gallon covers two square feet of surface for the initial maintenance dosage. Thereafter add a pint per week for normal loading or 1 quart for heavy loads of fat and oils. Add by pouring into the drain nearest to the grease trap or remove the trap cover and add directly to the trap. Only a thin layer of product is needed for mosquitoes and flies control.

**FOR INDUSTRIAL USE ONLY**

**CAUTION:** Keep out of the reach of children. Combustible. Store in a safe place away from extreme heat and open flames. If eye contact occurs, wash away with water until irritation stops. If it persists, see a physician. Avoid prolonged skin contact. Wash from skin with soap and water. Wash contaminated clothing before reuse.
