MEC RUST STOP

REMOVES RUST, OXIDATION, TARNISH, DIRT, AND HEAT SCALE

NO ACID FUMES - RETARDS FLASH RUSTING - PROMOTES PAINT ADHESION

Concentrated liquid acid cleaner for easily cleaning and de-rusting iron and steel without attack on the base metal. It also leaves a phosphate coating on the steel that retards flash rusting and promotes paint adhesion. Authorized by USDA for use in federally inspected meat and poultry plants.

DIRECTIONS: Dilute with hot or cold water.
- **MANUAL APPLICATION** = 64 ounces/gallon of water
  - Keep surface wet with solution for 5-15 minutes. Brush lightly if needed and rinse well with water (Hot water provides faster drying and helps retard flash rusting.
- **DIP TANK** = 32 ounces/gallon of water
  - Immerse parts in the solution until de-rusting is complete (Slight agitation with a brush will help loosen encrusted areas). Remove clean parts and rinse well with water (Hot water provides faster drying and helps retard flash rusting. *Heated tanks must be made of stainless steel. Non-heated tanks can be rubber lined steel, fiberglass, or polyethylene.

FOR INDUSTRIAL USE ONLY

CAUTION: Keep out of the reach of children. Harmful if swallowed. Eye and skin irritant. Flush eyes with water for 15 minutes. If irritation persists, see physician. Immediately wash from skin and clothing with water. If swallowed, drink lots of water, milk of magnesia and do not induce vomiting and contact a physician immediately. **EMERGENCY PHONE #**: 800-424-9300 / Reference Code: MTEQ / Product Code: 091. **SHIPPING NAME**: Corrosive Liquid NOS (Phosphoric Acid), Hazard Class: 8, ID# UN1760, PG: III.
